

Earth

4. Earth's Resources

CONCEPT 1

TEST YOURSELF

EARTH RESOURCES

KNOW

- Q1 Choose 6 natural resources. Describe why we need each one and how we use it.
- Q2 Classify each of the resources you listed in Q1 as renewable or non-renewable.

APPLY

- Q3 Why are some natural resources more vulnerable to human activities than others?
- Q4 How many natural resources have you used today? Can you think of where they have been sourced from?

EXTEND

- Q5 Explain why there has been a loss of biodiversity in the Amazon rainforest.
- Q6 Suggest how we could manage the Amazon's resources in a more sustainable way.
